

The medical impacts of climate change

Author(s):	Montgomery H
Year:	2007
Journal:	British Journal of Hospital Medicine (London, England : 2005). 68 (12): 663-665

Abstract:

Carbon dioxide captured in fossil fuels over some 410 million years has been released in decades, and the earth is warming as a result. This threatens not just our health, but our very survival as a species.

Resource Description

Exposure :

weather or climate related pathway by which climate change affects health

Temperature

Temperature: Fluctuations

Geographic Feature:

resource focuses on specific type of geography

None or Unspecified

Geographic Location:

resource focuses on specific location

Global or Unspecified

Health Impact:

specification of health effect or disease related to climate change exposure

General Health Impact

Medical Community Engagement:

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

Resource Type:

format or standard characteristic of resource

Climate Change and Human Health Literature Portal

Policy/Opinion

Timescale: ☒

time period studied

Time Scale Unspecified
